

## Oxygen Providers

Contact 3B™ Medical directly for more information about this innovative new POC.

*Proudly Made in the USA*

## Magnetic Port

The Aer X's Magnetic Port is designed for safety. In the event your oxygen cannula is caught on an object. The unique Magnetic Port quickly releases from the device.

# The Aer X Difference

It's what's on  
the inside  
that counts.

## Aer X Designed for YOUR Active Life

We at 3B™ Medical know that your desire to maintain an active healthy life doesn't end just because of a diagnosis. For you we created Auto X technology. Auto X detects your breathing needs and keeps up with your body's demands.

All new Aer X portable oxygen concentrator (POC) was designed for busy people on the go. Don't let a diagnosis define your life, take charge and take control. The Aer X was engineered to efficiently and conveniently deliver your prescribed oxygen levels and you never need to worry about running out of oxygen.

Aer X utilizes Auto X technology. Auto X provides extra oxygen when you need it most. Physical activity can mean that your body demands more than your normal dose and Auto X keeps up with that demand.

Lightweight & Easy to use...  
*your active lifestyle Approves!*

It is sort of like having  
an on-demand  
**turbo function**  
for your respiratory engine
