

Model 1017MUSB | NeoTech™ Plus Series Headset

The NeoTech Plus 1017MUSB is a versatile, workhorse headset for general-purpose classroom usage. The 1017MUSB delivers performance at a cost-effective price for 1:1 learning, assessment testing and more. Its audio playback is calibrated to enhance the tonal range of the human voice in language learning and its noise-reducing, unidirectional boom microphone captures a student's verbal response - not their neighbors - making it ideal for language learning, library uses and in computer labs. Compatible with Chromebooks, laptops and desktop PCs & Macs, it provides the versatility you need for BYOD and school-issued device requirements in the classroom.

Durable CaliTuff[™] Cord

The 1017MUSB features a highly durable CaliTuff[™] cord made of braided, PVC-jacketed material that resists chewing and cutting. The CaliTuff[™] cord design includes a reinforced earcup entry point that resists stress separation.

Hygienic Packaging

The 1017MUSB comes in a heavy gauge plastic zip lock bag with personalized labeling area that promotes classroom hygiene by isolating head lice while providing utility for storage when not in use.

3-Year Institutional Warranty

Califone's 3-year institutional warranty covers school usage, unlike consumer grade product warranties that are often voided when applied to damage sustained in classroom settings. This added level of protection helps stretch your budget by covering replacement costs if necessary in your particular situation.

Model **1017MUSB** | NeoTech[™] Plus Series Headset

- 1. Padded headband comfortable enough for extended wear
- 2. Fully adjustable to fit all sizes
- Noise-reducing circumaural earcups lower external noise so volume can be set at levels recommended for hearing safety
- 4. Noise-reducing unidirectional mic, swings up alongside the headband when not in use
- 5. 6' Highly durable CaliTuff[™] cord made of braided, PVC-jacketed material with reinforced earcup entry point resists chewing, cutting and separation
- 6. Plug type: USB 2.0
- 7. Inline volume control ideal for easy access.
- 8. Rugged ABS plastic head strap and earcups resist breakage in high-use situations, replaceable leatherette ear cushions
