

Model 1017IMT | NeoTech™ Plus Series Headset

Durable CaliTuff™ Cord

The 1017IMT features a highly durable CaliTuff™ cord made of braided, PVC-jacketed material that resists chewing and cutting. The CaliTuff™ cord design includes a reinforced earcup entry point that resists stress separation.

Hygienic Packaging

The 1017IMT comes in a heavy gauge plastic zip lock bag with personalized labeling area that promotes classroom hygiene by isolating head lice while providing utility for storage when not in use.

Specifications

Speaker	40mm Mylar
Magnet	Cobalt
Impedance	32 ohm ± 15%
Frequency Response	20 - 20K Hz
Sound Pressure Level	100 db ± 3 db at 1 kHz

Color	Black Matte finished - headband, earcup
Package	Resealable storage bag
Weight	6.7 ounces, shipping weight 1 lb.
Carton	40 pieces, Gross 22 lbs, 16" x 18" x 18.5" carton dimensions

The NeoTech Plus 1017IMT is a versatile, workhorse headset for general-purpose classroom usage with mobile devices. The 1017IMT delivers performance at a cost-effective price for 1:1 learning, assessment testing and more. Its audio playback is calibrated to enhance the tonal range of the human voice in language learning and its unidirectional inline microphone captures a student's verbal response - not their neighbors - making it ideal for language learning, library uses and in computer labs. Compatible with tablets, smartphones, Chromebooks, laptop and desktop PCs & Macs, it provides the versatility you need for BYOD and school-issued device requirements in the classroom.

3-Year Institutional Warranty

Califone's 3-year institutional warranty covers school usage, unlike consumer grade product warranties that are often voided when applied to damage sustained in classroom settings. This added level of protection helps stretch your budget by covering replacement costs if necessary in your particular situation.

Model 1017IMT | NeoTech™ Plus Series Headset

1017IMT Features

1. Padded headband comfortable enough for extended wear
2. Fully adjustable to fit all sizes
3. Noise-reducing circumaural earcups lower external noise so volume can be set at levels recommended for hearing safety
