Effective June 2020

Keagan

Making life easier 

“My stoma doesn’t define me. My friends know about it and support me. I feel comfortable when we are hanging out.”

Keagan

About Keagan

“What will my friends think?” This was Keagan’s first thought as an ostomate. Having been diagnosed with Crohn’s disease at the age of 15, Keagan was admitted to the hospital with a perforated colon and quickly underwent ostomy surgery.

Like any teenager, being able to be ‘normal’ and to fit in is really important. Being able to do all the great stuff that life offers – just like everybody else, is also a real concern. Although these thoughts were a real worry at first, and even though it hasn’t been an easy journey for her, circumstances have changed for the better for Keagan.

Today, Keagan has established a good routine. Importantly, those around her are aware of her condition.

Keagan is a SenSura® Mio user who has received compensation from Coloplast to provide this information. Each person’s situation is unique and experiences may not be the same. Users should talk to their healthcare professional about which product may be right for them.

Welcome to Coloplast

Coloplast is a leader in the market within intimate healthcare. For more than sixty years, we've worked closely with healthcare professionals and users to develop products and services that make life easier for people with intimate healthcare needs.

Our Mission

***Making life easier for
people with intimate
healthcare needs***

Making
life *easier*

Product Guide

Continence Care | Effective June 2020

SpeediCath® catheters are prescribed for use for patients who require bladder drainage due to urine retention or post void residual volume (PVR). Before use, carefully read all of the instructions. Call your doctor if you think you have a UTI or can't pass the catheter into the bladder. For more information regarding risks, potential complications and product support, call Coloplast Corp. at 1-866-226-6362 and/ or consult the company website at www.coloplast.us. Caution: Federal law restricts this device to sale by or on the order of a physician.

Self-Cath® Plus Intermittent Urinary Catheters are intended for use in male or female patients requiring bladder drainage as determined by their physician. This device is indicated for those individuals unable to promote a natural urine flow or for those who have a significant volume of residual urine following a natural bladder-voiding episode. The device can be used by the patient once appropriate training has taken place or by a trained healthcare professional. Single-use only. See the device manual for detailed information regarding the procedure, contraindications, warnings, precautions, and potential complications/adverse events. For further information, call Coloplast Corp. at 1-866-226-6362 and/or consult the company website at www.coloplast.us. Caution: Federal law restricts this device to sale by or on the order of a physician.

Self-Cath® Intermittent Catheters are intended for use in male, female, and pediatric patients (neonates, infants, children, adolescents, and transitional adolescents) requiring bladder drainage as determined by their physician. This device is indicated for those individuals unable to promote a natural urine flow or for those individuals who have a significant volume of residual urine following a natural bladder-voiding episode. Single-use only. See the device manual for detailed information regarding the procedure, contraindications, warnings, precautions, and potential complications/adverse events. For further information, call Coloplast Corp. at 1-866-226-6362 and/ or consult the company website at www.coloplast.us. Caution: Federal law restricts this device to sale by or on the order of a physician.

SureCath® Catheters are indicated for use by patients for intermittent catheterization for the purpose of bladder drainage. See the device manual for detailed information regarding the instructions for use, contraindications, warnings, precautions, and potential complications/adverse events. For further information, call Coloplast Corp. at 1-866-226-6362 and/or consult the company website at www.coloplast.us. Caution: Federal law restricts this device to sale by or on the order of a physician.

Folysil® Indwelling Catheters empty urine from the bladder through the urethra via a small cut through the abdomen above the pubic bone (suprapubic) during a surgical procedure. The choice of the size, balloon volume, and catheter material is the responsibility of your healthcare professional based on your condition and the length of time to be used. Coloplast's indwelling catheters are available by prescription only. Coloplast's indwelling catheters are for single-use only; discard it after use. If you experience symptoms of a urinary tract infection, are unable to pass urine, or the balloon will not deflate, contact your healthcare professional. The risk information provided here is not comprehensive. To learn more, talk to your healthcare professional to understand the risks and benefits to determine if Folysil is right for you. Although many patients benefit from the use of this device, results may vary. For further questions, call Coloplast Corp. at 1-866-226-6362 and/or consult the company website at www.coloplast.us.

Indication: **The Peristeen® Transanal Irrigation System** is intended to instill water into the colon through a rectal catheter, which incorporates an inflatable balloon, inserted into the rectum to promote evacuation of the contents of the lower colon. The Peristeen Transanal Irrigation System is indicated for use by children (2 years - <12 years old), adolescent (12 years - < 18 years old), transitional adolescent (18 - <21 years old) and adult patients with neurogenic bowel dysfunction who suffer from fecal incontinence, chronic constipation, and/or time-consuming bowel management procedures.

Contraindications: Peristeen Transanal Irrigation must not be used in the following situations: known anal or colorectal stenosis, colorectal cancer, radiotherapy to the pelvis, and recent abdomino-perineal surgery, active inflammatory bowel disease, acute diverticulitis, severe diverticulitis, previous diverticulitis and diverticular abscess, chronic symptomatic diverticular disease, within 3 months of abdominal, anal or colorectal surgery, within 4 weeks of endoscopic polypectomy, recent colonic biopsy, recent endoscopic mucosal resection (EMR) and recent endoscopic sub-mucosal dissection (ESD), severe autonomic dysreflexia, ischemic colitis, during spinal cord shock phase, complex diverticular disease, in patients who are pregnant and have not used the system before*. Since the list is not exhaustive, the healthcare professional should always consider individual patient factors as well.

*If the patient is pregnant and has never used transanal irrigation before, they should not start the irrigation procedure during pregnancy.

Warning: Peristeen Transanal Irrigation procedure should always be carried out with care. Bowel perforation is an extremely rare, but serious and potentially lethal complication to transanal irrigation and will require immediate admission to a hospital, often requiring surgery. See the device manual for complete user instructions, contraindications, warnings, precautions, and potential complications/adverse events. For further information, call Coloplast Corp at 1-855-605-7594 or consult the company website at www.coloplast.us. Caution: Federal law restricts this device to sale by or on the order of a physician.

Ensure your patients get the product you recommend. Ask for SpeediCath® and Self-Cath® by brand name.

Intermittent catheter users who have insurance can pay the same price when buying any catheter within the same category: straight tip,¹ coude tip,² or catheter sets.³

* Dispense as written; exact language to specify brand dispensed varies by state. Contact your Coloplast Sales Rep or National Association of Boards of Pharmacy for more information.

Advise your patients to find a supplier who accepts assignment for the intermittent catheter you prefer by contacting Coloplast Consumer Care at [1-866-226-6362](tel:1-866-226-6362).

Steps to ensure patients get the catheter they want:

1. Include the following information on each prescription:

Patient Name _____
 Address _____

Type of catheter (straight, coude, kit / closed system)

Rx: SpeediCath Compact Set 28422
 Dx: Urine retention
 5 catheters / day x 30 days / month = 150 catheters / month

Brand of catheter

Frequency of catheterizations / day and total catheters needed / month

Do not refill _____
 Refill _____ Times NPI Number _____
 Date _____ Print Last Name _____

2. Enroll your patients in Coloplast® Care

Call - contact Coloplast Care at 1-866-226-6362

Email - send request to care-us@coloplast.com

Fax - send patient enrollment form to 1-855-676-2594

Website - www.ColoplastCareEnroll.com

2. HCPCS A4352 (coudé)**

3. HCPCS A4353 (catheter set)**

SpeediCath® Standard

The world's first ready-to-use hydrophilic-coated intermittent catheter

Easy to carry, store and use. The catheter is pre-hydrated and ready-to-use, eliminating wait time. The hydrophilic coating is smooth and uniform, designed to minimize urethral friction. The eyelets are polished for comfort. The uncoated Grip Zone™ area is created to offer control in handling. **This catheter is not made with natural rubber latex and is DEHP and phthalate free.**

SpeediCath® Standard

SpeediCath catheter only. No insertion supplies.

SpeediCath® Soft

SpeediCath® Soft is designed to make catheterization simple and easy with fast preparation and a confident grip.

- Pre-lubricated intermittent catheter that is instantly ready to use with a unique hydrophilic coating, eliminating the need for additional lubricants or waiting for a catheter to hydrate.
- Insertion grip made from a soft, flexible material designed to ensure a confident and hygienic grip of the catheter, without touching the tube or tip.
- Soft catheter that is easy to use the first time and every time
- **Not made with natural rubber latex and is DEHP and phthalate free.**

Peristeen® Transanal Irrigation System *A better path to bowel control*

Transanal irrigation with Peristeen is a well-documented bowel emptying technique that is effective at preventing fecal incontinence and chronic constipation for patients with neurogenic bowel dysfunction.

To learn more visit www.coloplastcare.us/bowel.

Peristeen® Transanal Irrigation

Peristeen is a FDA Class II cleared transanal irrigation system intended to instill water into the colon through a rectal catheter to promote evacuation of the contents of the lower colon. It is indicated for use by children (2 and up), adolescents, transitional adolescents and adults with neurogenic bowel dysfunction.

Peristeen is specially designed for portability and ease of use. It offers independence and a sense of security to the user. In clinical trials with patients with neurogenic bowel dysfunction, Peristeen system reduced fecal incontinence and constipation and improved quality of life.^{1,2}

Product Guide

Wound Care | Effective June 2020

Wound

Brief statements

Biatain® Ag Foam Adhesive and Non-Adhesive Dressings are indicated for use in patients with moderately to highly exuding leg ulcers and pressure sores, second degree burns, donor sites, post-operative wounds and skin abrasions. Biatain® Ag Foam Non-Adhesive Dressings are also indicated for diabetic foot ulcers. Patients being treated for wounds should follow the advice of, and direct questions about use of the product to, their medical professional. Before using the device, carefully read the product labels and information accompanying the device including the instructions for use which contain additional safety information. Coloplast's wound dressings are for single-use only; discard it after use. The use of Biatain Ag dressings during pregnancy, lactation and on children has not been demonstrated. Biatain Ag foam dressings should not be used on patients with a known sensitivity to silver. If you experience symptoms of an allergic reaction, contact your healthcare professional. The risk information provided here is not comprehensive. To learn more, talk to your healthcare provider. For further information, call Coloplast Corp. at 1-800-533-0464 and/or consult the company website at www.coloplast.us.

Biatain® Alginate Ag Dressings are indicated for wounds with moderately to heavily exuding partial to full thickness wounds such as post-operative wounds, trauma wounds, leg ulcers, pressure ulcers, and diabetic ulcers. Patients being treated for wounds should follow the advice of, and direct questions about use of the product to, their medical professional. Before using the device, carefully read the product labels and information accompanying the device including the instructions for use which contain additional safety information. Coloplast's wound dressings are for single-use only; discard it after use. The use of Biatain Ag dressings during pregnancy, lactation and on children has not been demonstrated. Biatain Ag foam dressings should not be used on patients with a known sensitivity to silver. If you experience symptoms of an allergic reaction, contact your healthcare professional. The risk information provided here is not comprehensive. To learn more, talk to your healthcare provider. For further information, call Coloplast Corp. at 1-800-533-0464 and/or consult the company website at www.coloplast.us.

Triad® hydrophilic wound dressing is indicated for the local management of pressure and venous stasis ulcers, dermal lesions/injuries, superficial wounds, scrapes, first-and second-degree burns, partial-and full-thickness wounds. Suitable for use on neonates. Triad is contraindicated for third degree burns or infected wounds. See device label for complete information including warnings and precautions. For further information call Coloplast Corp. at 1-800-533-0464 and/or consult the company website at www.trytriad.com.

Discover the difference of Biatain® dressings with 3DFit Technology™

Biatain foam dressings feature 3DFit Technology for optimal moist wound healing

Conforms to the wound bed

Upon contact with exudate, the unique foam conforms to the wound bed and reduces exudate pooling

Absorbs vertically

Microcapillaries go into action to absorb the exudate vertically and create optimal healing conditions

Retains exudate

Exudate is locked-away and retained even under compression, reducing risk of leakage and maceration

Biatain® Ag Foam Dressings combine 3DFit Technology™ with controlled ionic silver-release. The dressings demonstrate in-vitro antibacterial activity in certain strains known to be detrimental to wound healing.¹ Clinical evidence shows a 45-56% ulcer size reduction within 4 weeks.²⁻⁵ **Not made with natural rubber latex; sterile.**

Biatain® Ag Non-Adhesive Foam Dressing

- Features 3DFit Technology™ for optimal moist wound healing
- Combines effective antimicrobial technology with exudate management
- Soft and flexible dressing with beveled edges
- Suitable for compression wraps and fragile skin

Biatain® Alginate

Biatain® Alginate is a highly absorbent wound dressing composed of alginate and hydrocolloid (sodium carboxymethylcellulose). On contact with wound exudate it converts to a soft cohesive gel which provides an optimal moist wound healing environment. **Not made with natural rubber latex; sterile.**

Biatain® Alginate Dressing

- Fast-gelling alginate
- One-piece removal
- Recommended for cavity filling

💧—💧💧 Exudate Level

The Comfeel® Plus portfolio offers a range of dressings to manage and protect non- to moderately-exuding wounds.

- Exudate management with fewer dressing changes and less disruption to wound bed
- Specialty shapes and sizes for difficult-to-dress areas
- Color guide indicates best time to change dressing
- Non-touch application system for ease of use
- **Not made with natural rubber latex; sterile**

Comfeel® Plus Transparent Dressing (Thin)

- Comfortable, flexible hydrocolloid adaptable to wound and body contours
- Clear dressing and mapping grid allow for visual inspection without disturbing wound
- Does not contain alginate

Product Guide

Skin Care | Effective June 2020

Skin

Brief statement

InterDry® is a skin protectant for the treatment of skin folds. The silver complex protects against microbial colonization in the fabric. This single-use fabric provides moisture translocation to keep skin dry while the antimicrobial in the fabric reduces odor. The safe use of InterDry fabric during pregnancy, lactation and on children has not been demonstrated. Although many patients benefit from the use of this device, results may vary. See the device labeling for detailed information including directions for use, indications, description, precautions, warnings, and other information. For further questions, call Coloplast Corp. at 1-800-533-0464 and/or consult the company website at www.coloplast.us.

We believe.

At Coloplast, healthy skin is our purpose, our mission, our cause, and our promise. And we deliver on our promise every day by focusing on three key areas: breadth, simplicity, and partnership.

Color-coded labels simplify product selection

- 1 **Brand name**
A brand name you've come to trust
- 2 **Category**
Defines the need
- 3 **Description**
Defines the product
- 4 **Where to use**
Defines the product use
- 5 **Symbol**
Graphic representation of skin care needs
- 6 **Cap color**
Further differentiates product function

Micro-Guard® Powder

Antifungal powder

- Non-talcum based formula with 2% miconazole nitrate
- Effective treatment of topical fungal infections
- Helps reduce the effects of friction and shear

Code	Size	Units
1337	3 oz. (85 g)	12

InterDry®

Moisture-wicking fabric with antimicrobial silver

Skin Fold Management

- Manages all four causes of intertrigo; moisture, friction and bacterial or fungal organisms in skin folds¹ and other skin-to-skin and skin-to-device contact areas
- Manages the symptoms associated with intertrigo such as erythema, painful rash, denudement, satellite lesions and odor²
- Silver within the fabric provides effective antimicrobial action for up to 5 days

By targeting all four causes of Intertrigo, InterDry is clinically proven to provide complete, cost-effective relief within 5 days for as little as \$5³.

Isagel®

No-rinse, antiseptic hand cleansing gel

- Formulated with emollients for extra mildness
- Contains 60% ethanol alcohol
- CHG and latex glove compatible

Code	Size	Units
1644	4 fl. oz. (118 mL)	36
1645	21 fl. oz. (621 mL) [†]	12
7041	27 fl. oz. (800 mL) [†]	12

[†] See dispensers on page 59.

Hex-On®

Odor antagonist

- Helps control airborne odors
- Non-aerosol spray

Product	Code	Size	Units
Fresh Linen	7583	2 fl. oz. (59 mL)	12
Fragrance Free	67589	2 fl. oz. (59 mL)	12

Bedside-Care® Gentle Touch Cloths

Disposable washcloths for use with all-body bathing and perineal cleansing products.

- Rayon, for softness and absorbency
- Polyester, for strength and tear resistance

Code	Size	Units
7057	25 washcloths/pack	24

Coloplast® Wall Dispenser

- Holds 27 fl. oz. and 34 fl. oz. (800 mL and 1000 mL) refill bags
- Completely closed to prevent possible contamination
- Metered 1 mL pump dispenses appropriate amount
- No-drip nozzle leaves facility clean and safe
- Easy-to-operate push pad meets Americans with Disabilities Act guidelines
- Keyless opening for simple cartridge replacement
- Installs quickly with choice of screws or tape

Code	Size	Units
7251	Holds 27 fl. oz. and 34 fl. oz. (800 mL and 1000 mL)	12
7262	Drip tray	60

Embrace™ Bracket

- Holds 21 fl. oz. (621 mL) Coloplast containers securely in place
- Improved tamper and theft-resistant design
- Optional locking collar conceals cap
- Installs quickly with choice of screws or tape

Code	Size	Units
0089	Holds 21 fl. oz. (621 mL)	12

Product Guide

Ostomy Care | Effective June 2020

Through BodyFit Technology®, we offer a secure fit to real bodies **to help prevent leakage and skin issues**

Leakage and skin issues are closely related challenges. The **right fit** helps **prevent** both.

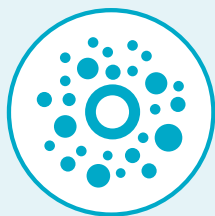

Leakage

76%

of people with a stoma have experienced leakage within the last six months.¹

Leakage

is often caused by a poor fit to the body.²

Skin issues

Skin issues

There is a significant correlation between leakage frequency and the severity of the peristomal skin condition.²

61%

of users attributed their most recent skin issue to leakage under the barrier.³

1. Results from the 2014 Ostomy Life Study - an international survey aimed to better understand the challenges people living with an ostomy face (n=4000 ostomates). Published: Claessens I, Probert R, et. al. The Ostomy Life Study: the everyday challenges faced by people living with a stoma in a snapshot. Gastrointestinal Nursing. 2015;13(5), 18-25.
2. Results from a multinational, randomized controlled cross-over trial comparing SenSura Mio Convex to the study participants' own appliance (n=129). Published: Walker H, Hopkins G, et. al. Raising the bar: New flexible convex ostomy appliance - a randomised controlled trial. World Council of Enterostomal Therapists Journal. 2016;36(1) S6-S11.
3. Results from the 2018-2019 Ostomy Life Study - an international survey (n=3112 ostomates); Coloplast market research, Data on file.

The fit is the difference

between sitting around and
hitting the town

SenSura[®] Mio

SenSura[®] Mio with BodyFit Technology[®] is designed to provide a **secure fit for all body shapes**. The BodyFit Technology in all Mio products allows the barrier to attain and maintain a secure fit.

BodyFit Technology is founded on an elastic double-layer adhesive and combined with innovative barrier design to secure a better fit.

The fit is the difference
with SenSura[®] Mio

Products of Distinction

SenSura® Mio Convex Flip

Designed to fit curves, bulges and hernias with less creasing and folding

SenSura® Mio Convex

Three different types of convexity with proven leakage reduction

SenSura® Mio Baby

Long wear time without compromising skin friendliness

Brava® Ostomy Support Belt

Relieves the heavy sensation of hernias and may help prevent hernias post-operatively

SenSura® Mio High Output

The only 1-piece convex option with a spout outlet for fecal output

Coloplast Fistula and Wound Management System (FWMS)

Available in three sizes to accommodate a large surgical incision or management of type II fistulas

Brava[®]

Security to live *everyday life*

**“I was determined
to play sports
again. The
Brava Protective
Seal gave me
confidence.”**

– Kevin*

*Kevin is a Brava user who has received compensation from Coloplast to provide this information.

Accessories

Brava® supporting products

*For customizing pouching system fit
and for issues such as leakage and
skin irritation.*

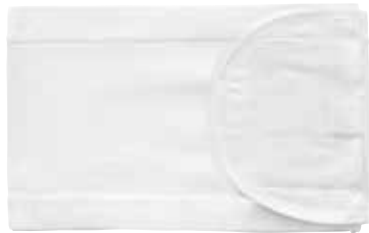

Brava® Protective Seal

- Easily shaped
- Leaves minimal residue behind
- Follows body movements
- Significantly reduces leakage compared to competitor rings

Accessories

The **Brava® Ostomy Support Belt** brings relief by relieving the heavy sensation of hernias.

- Comfortable and breathable fabric
- Stretchable to fit body contours
- Easy-to-use pocket closure
- Silicone grip to prevent sliding and rolling

What's right for your patients?

Think again. Think Brava®

Your complete solution to address leakage and care for your skin.

Brava® Elastic Barrier Strips

Skin-friendly strips are used to “picture frame” around an ostomy barrier, providing extra security.

- Elastic (follow the contours of the body)
- Ensure the position of the barrier and minimize roll-up
- Skin-friendly and secure alternative to tape
- **Not made with natural rubber latex**

Brava® Elastic Barrier Strips- Curved

For round or oval barrier shapes

Code	Size	Units	HCPCS*
120700**	5½" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362

Brava® Elastic Barrier Strips- Y shape

Designed for users with challenging body shapes, e.g. hernias or skin folds

Code	Size	Units	HCPCS*
120721**	5¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

Brava® Elastic Barrier Strips- Straight

For square or rectangular barrier shapes

Code	Size	Units	HCPCS*
120740**	5¾" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362

Brava® Elastic Barrier Strip XL

Designed for increased security & support around the barrier. Wider shape accommodates the petals of Convex Flip.

Code	Size	Units	HCPCS*
12076**	6¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

*For important information regarding the use of HCPCS codes listed and code definitions see page 192

Brava® Protective Seal

Moldable barrier ring designed to adhere securely and protect the skin around the stoma.

- Soft, flexible material adapts to body shape as the wearer bends and stretches
- Can be easily and cleanly removed
- Alcohol-free and sting-free
- Multiple sizes for a custom fit
- **Not made with natural rubber latex**

Brava® Moldable Ring

Designed for dual-action leakage reduction - used to fill in uneven skin surfaces and protect the skin.

- Molds and adheres securely to dips, creases, and folds to help create a tight seal around the stoma
- Helps keep skin healthy by protecting it from output and absorbing moisture from the skin
- Easy to handle, mold and apply
- Alcohol-free and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120307	2 mm (thin)	10	A4385
120427	4.2 mm (thick)	10	A4385

Brava® Strip Paste

Pectin-based product that protects peristomal skin.

- Protects peristomal skin from stoma output
- Used to fill uneven skin surfaces to create a flat pouching surface
- Alcohol-free and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
26555	2 oz. total package (.2 oz. per strip)	10 strips	A4406

Brava® Paste

A sting-free alternative to conventional alcohol-based paste.

- Creates a tight, effective seal between peristomal skin and the ostomy/fistula appliance
- No alcohol = no need to “set”; contains pectin
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
12050	2 oz.	1	A4406

Coloplast® Paste

Used to fill in uneven skin surfaces to create a flat pouching surface.

- Provides tight sealing around the stoma
- Protects against stoma output, minimizing risk of maceration
- Low alcohol content; no pectin
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
2650	2 oz.	12	A4405

Brava® Skin Cleanser Wipes

The wipe that cleans and cares. A convenient way to cleanse and maintain healthy skin when changing the ostomy pouching system.

- Contains ProVitamin B5 to provide a soothing and moisturizing effect
- Does not contain alcohol or perfumes
- No residue left on the skin that could affect barrier adhesion
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
12080	1 wipe	15 wipes/pack	A9286

Brava® Lubricating Deodorant

A pouch lubricant + deodorizer in one. Powder-fresh liquid neutralizes odor and allows output to slide to the bottom of the pouch for easier emptying.

- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
12060	.25 fl. oz. (7.5 mL) sachet	20 sachets	A4394
12061	8 oz. bottle	16	A4394

Brava® Adhesive Remover Spray

- Designed to lift the edges of the barrier for ease in removal
- Dry within seconds without leaving an oily residue behind
- Alcohol-free, silicone-based, and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120105	1.7 oz. (50 mL)	1	A4455

*For important information regarding the use of HCPCS codes listed and code definitions see page 192

Brava® Adhesive Remover Wipes

- Wipe away adhesive residue
- Dry within seconds without leaving an oily residue behind
- Alcohol-free, silicone-based, and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120115	1 wipe	30 wipes/box	A4456

Brava® Skin Barrier Spray

- Protects against stoma output and adhesives
- Dry within seconds without building a thick or tacky layer
- Alcohol-free, silicone-based, and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120205	1.7 oz. (50 mL)	1	A4369

Brava® Skin Barrier Wipes

- Protects against stoma output and adhesives
- Dry within seconds without building a thick or tacky layer
- **Tip:** wring the wipe like a wet rag to expel the liquid, then wipe to disperse on skin
- Alcohol-free, silicone-based, and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120215	1 wipe	30 wipes/box	A5120

Brava® Protective Sheet

Hydrocolloid skin barrier that protects the skin from stoma output.

- Offers effective protection for peristomal skin and “3-way stretch”
- Provides a ready surface for good adhesion
- Adheres to moist skin
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
32105	4 x 4" (10 x 10 cm)	10	A4362
32155	6 x 6" (15 x 15 cm)	5	A5121
32205	8 x 8" (20 x 20 cm)	5	A5122

Brava® Powder

Non-sterile protective powder for moisture absorption.

- May use in conjunction with Brava® Skin Barrier Spray or PREP™ to “crust”, thereby protecting moist skin
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
19075	1 oz. (25 g)	16	A4371

Hex-On®

Odor Antagonist

- Helps control airborne odors
- Non-aerosol spray
- **Not made with natural rubber latex**

Product	Code	Size	Units
Fresh Linen	7583	2 fl. oz./59 mL	12
Fragrance Free	67589	2 fl. oz./59 mL	12

Brava® Belt for SenSura® Mio

Neutral gray color was designed to blend in under clothing. Four-tab connection provides extra stability across the entire peristomal area. Designed specifically for use with SenSura® Mio products with belt tabs.

- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
4237	40" length	15	A4367
4247	61" length	15	A4367

Brava® Belt

Comfortable, adjustable belt offers extra security for people with a flush or retracted stoma by supporting a convex barrier and allowing the stoma to protrude.

- Neutral color won't show under clothing
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
4215	43 $\frac{1}{3}$ " length	15	A4367
4220	49" length	15	A4367

Urostomy Night Bag

Includes a fixed connector that fits directly to SenSura® Mio, SenSura® and Assura® urostomy pouches. The bag holds up to 2 liters and has a 120 cm long flexible tube with anti-reflux valve. Bag hanger (#5070) not included. Order separately.

- **Not made with natural rubber latex**

Code	Units	HCPCS*
21365	10	A4357

Bed Drainage Bag

Wide-lumen bag tubing specifically designed for fecal output. Holds up to 2000 mL. Long tubing can be cut easily and allows nurses to find the right length for bed drainage. Can be used with fistula / wound management systems or high-output pouches. Bag hanger (#5070) not included. Order separately.

- **Not made with natural rubber latex**

Code	Units	HCPCS*
14010	6	A4357

Bag Hanger

Reusable, sturdy, plastic drainage bag hanger secures tubing and ensures bag stability.

- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
5070	One Size	1	Medicare A9900 Other A4421

Extra Drain Port

For use with Fistula Wound Management Systems (page 167). Drain port can be easily applied to the lid to allow for catheter insertion. For catheters ranging from 18FR - 22FR, the drain port is ready for use. For catheters ranging from 24FR-30FR, pull off the top of the drain port - DO NOT CUT.

- **Not made with natural rubber latex**

Code	Units
14015	12

*For important information regarding the use of HCPCS codes listed and code definitions see page 192

Coloplast® Transparent Fistula Lids

Replacement lids match the transparent lid included with each fistula pouch.

- **Not made with natural rubber latex**

Xpro vs. Standard Wear: how do I choose?

Extended wear doesn't necessarily indicate longer wear time!

SenSura® Xpro (Extended Wear) is engineered to offer extra protection for liquid ileostomies and urostomies.

SenSura® Standard Wear focuses on moisture absorption and may offer better adhesion for those in more humid climates.

SenSura® Click MAXI Drainable Pouch

- EasiClose™ WIDE Outlet

NOTE: SenSura® Click is compatible with Assura® but NOT with SenSura® Mio Click.

Urostomy

SenSura® Uro

Wide anti-reflux valves support varying ways of managing stents:

- Stents threaded into a pouch connected to a night drainage bag
- Rolling the stents in the top of the pouch, making a loop
- Stents that have been cut

Welded "multi-chambers" minimize ballooning

SenSura® Click Uro MAXI Urostomy Pouch

- Multi-chambers minimize sloshing
- Wider anti-reflux valves prevent urine from washing over the stoma
- Soft outlet can be connected to urostomy night bag #21365 or any standard night bag
- Soft cloth on back (and front of opaque)
- **Not made with natural rubber latex**

2-piece Flex

(Adhesive coupling)

Ultra-flexible system bends with body movements

The low profile of a 1-piece – the convenience of a 2-piece

Floating flange = minimal pressure to apply

Built-in security channel + strong adhesive = security against leakage

SenSura[®] Mio

The fit is
the difference
between staying in
and working out

Deirdre is a SenSura[®] Mio user.

SenSura[®] Mio Flex

The BodyFit Technology[®] in all SenSura Mio barriers combines an elastic adhesive, that bends and stretches with the body, with an innovative barrier design to provide a secure and comfortable fit.

2-Piece Flex

NOTE: SenSura® Mio Flex, SenSura® Flex, and Assura® AC are compatible with one another

Urostomy Night Bag and Bag Hanger

See Accessories page 73 for more information.

1-piece

The most flexible choice:
bends with body movements

No coupling = pouch and
barrier are welded together
and apply as one piece

Low-profile

SenSura[®] Mio

The fit is
the difference
between asking for help
and doing it yourself

Walton is a SenSura[®] Mio Convex Flip user.

1-piece

SenSura[®] Mio 1-piece Pouching System

The BodyFit Technology[®] in all SenSura Mio barriers combines an elastic adhesive, that bends and stretches with the body, with an innovative barrier design to provide a secure and comfortable fit.

Download the Coloplast Stoma Care App

Designed with nurses in mind

Features:

1. Easy access to Coloplast® Care
2. BodyCheck™ Assessment
3. Step-by-step guides with how-to-use videos
4. Common problems and recommended actions
5. General information on urostomies, ileostomies and colostomies

Download the Coloplast Stoma Care app now!

Search for “**Stoma Care**” in the App Store and Google Play to download for free today.

Post op / fistulas

Elastic adhesive fits over folds and contours, yet remains secure against effluent

Two outlet types for different options:

- Soft (for liquid stool; fits standard drain bags)
- Tap (for thicker output; fits fecal drain bag with wide-lumen tubing)

Printed measurement scale on post op pouches helps visually track output volume

Security and comfort from hospital to home.

Your patients deserve all the benefits of SenSura[®] Mio from day one following their operation.

Getting used to a stoma is challenging enough without the added complexity of having to learn a different pouching system. Why not give your patients the security and comfort of Mio - right from the start? Options are available in different sizes, outlet types, and coupling systems to meet patient needs.

Fistula / Wound Pouch Accessories

Coloplast® Fistula Drain Port

Can be easily applied to the lid to allow for catheter insertion. For catheters ranging from 18FR - 22FR, the drain port is ready for use. For catheters ranging from 24FR - 30FR, pull off the top of the drain port - DO NOT CUT.

- **Not made with natural rubber latex**

Code	Size	Units
14015	One size	12

Coloplast® Bed Drainage Bag

Bag tubing specifically designed for fecal output. Holds up to 2000 mL. Long tubing can be cut easily, allowing nurses to find the right length for bed drainage.

- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
14010	2000 mL	6	A4357

For matching bag hanger, see page 73.

Coloplast® Transparent Fistula Lids

Replacement lids match the transparent lid included with each fistula pouch.

- **Not made with natural rubber latex**

Code	Size	Units
14021	Mini (matches 14050)	10
14031	Midi (matches 14060)	10
14041	Maxi (matches 14070)	10

Coloplast® Pouch Clamp

Simple closure clamp is easy to manipulate, even for those with low dexterity.

- **Not made with natural rubber latex**

Units: 20

Code	Size	HCPCS*
9500	One size	A4363

Extra Protection

Brava® Elastic Barrier Strips

- Elastic (follows the contours of the body)
- Helps ensure the position of the appliance and minimize roll-up
- Skin-friendly and secure alternative to tape
- **Not made with natural rubber latex**

Brava® Elastic Barrier Strips- Curved
For round or oval barrier shapes

Code	Size	Units	HCPCS*
120700**	5½" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362

Brava® Elastic Barrier Strips- Y-shape
Extra-wide shape is designed to extend the barrier edges at '3' and '9' for users with challenging body shapes - like an outward area / hernia or a deep skin fold.

Code	Size	Units	HCPCS*
120721**	5¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

Brava® Elastic Barrier Strips- Straight
Rectangular strip designed to fit the straight edges of a square ostomy barrier.

Code	Size	Units	HCPCS*
120740**	5¾" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362

Brava® Elastic Barrier Strip XL
Designed for increased security & support around the barrier.

Code	Size	Units	HCPCS*
12076**	6¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

Brava® Strip Paste

- Pectin-based product that protects peristomal skin
- Protects peristomal skin from stoma output
- Used to fill uneven skin surfaces to create a flat pouching surface
- Alcohol-free and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
26555	2 oz. package (.2 oz / strip)	10 strips	A4406

*For important information regarding the use of HCPCS codes listed and code definitions see page 192

Brava® Protective Seal

Moldable barrier ring designed to adhere securely and protect the skin around the stoma.

- Soft, flexible material adapts to body shape as the wearer bends and stretches
- Can be easily and cleanly removed
- Alcohol-free and sting-free
- Multiple sizes for a custom fit
- **Not made with natural rubber latex**

Brava® Moldable Ring

Designed for dual-action leakage reduction - used to fill in uneven skin surfaces and protect the skin.

- Molds and adheres securely to dips, creases, and folds to help create a tight seal around the stoma
- Helps keep skin healthy by protecting it from output and absorbing moisture from the skin
- Easy to handle, mold and apply
- Alcohol-free and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
120307	2 mm (thin)	10	A4385
120427	4.2 mm (thick)	10	A4385

Brava® Paste

Pectin-based product that protects peristomal skin

- Protects peristomal skin from stoma output
- Used to fill uneven skin surfaces to create a flat pouching surface
- Alcohol-free and sting-free
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
12050	2 oz.	1	A4406

*For important information regarding the use of HCPCS codes listed and code definitions see page 192

Coloplast® Paste (non-pectin)

Used to fill in uneven skin surfaces to create a flat pouching surface.

- Provides tight sealing around the stoma
- Protects against stoma output, minimizing risk of maceration
- Low alcohol content; no pectin
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
2650	2 oz.	12	A4405

Brava® Powder

- Provides effective moisture absorption and protection
- **Not made with natural rubber latex**

Code	Size	Units	HCPCS*
19075	1 oz.	16	A4371

Brava® Adhesive Remover Spray

- Designed to lift the edges of the barrier for ease in removal
- Dry within seconds without leaving an oily residue behind
- Alcohol-free, silicone-based, and sting-free
- **Not made with natural rubber latex**

BodyCheck™

Identifying ostomy solutions based on individual needs

Together with 300 Wound, Ostomy, Contenance (WOC) nurses, we've developed BodyCheck™ which uses Body Profile Terminology, a common language to describe the peristomal body profile.

- 1 Assess your patient's overall parastomal body profile as a Regular, Inward, or Outward shape

- 2 Visit www.bodycheck.coloplast.us to complete the assessment

- 3 Receive personalized ostomy solutions *(may include accessory options)*

Visit www.bodycheck.coloplast.us

Coloplast Pediatric Pouching Systems

For little fighters

Babies and kids present different pouching challenges than adults - so we've applied **BodyFit Technology®** to develop specific solutions for the different stages in a child's life.

In 2019, we launched a new range of **SenSura® Mio** pouches specifically designed for babies and kids.

SenSura® Mio Baby

Long wear time.
Minimal disturbance.

SenSura® Mio Kids

So kids *can be kids*.

Ask us about our pediatric education!

- **Pediatric FAQ**

A quick tipsheet with answers to frequently asked questions, like "what do I do if friends and family - or other kids - have questions?" and "what do I do if my child pulls the pouch off?"

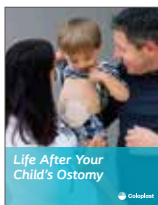

Caregivers can request this via our Coloplast® Care program.

- **My Child Has An Ostomy: A Resource Sheet for Caregivers**

A fill-in-the-blank sheet to help parents communicate about their child's needs to day care providers, school nurses, and other caregivers.

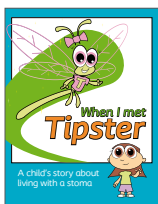

Caregivers can request this via our Coloplast® Care program.

- **Life After Your Child's Ostomy**

A high-level overview of anatomy, how to change a pouch, pouching system options, where to get supplies, dietary notes, and other information.

Caregivers can request this via our Coloplast® Care program.

- **When I Met Tipster: A coloring book for children with ostomies**

A simple coloring book to help kids engage with their ostomy surgery and "new normal" - or learn more about a sibling's ostomy.

To receive a book, please contact your Coloplast sales representative. Patients can also receive via the Coloplast® Care program.

- **Jake Gets a Stoma**

A children's book written by Jake's mom, who wanted a better way to explain the surgery and stoma management to her son and other kids going through the same thing.

To receive a book, please contact your Coloplast sales representative. Patients can also receive via the Coloplast® Care program.

- **SenSura® Mio Bunny**

A furry friend for babies and kids with a stoma (or their siblings!). Hang tag includes the number for Coloplast® Care in case parents or caregivers have any product or lifestyle questions - and the belly is sized to fit a SenSura® Mio Baby barrier (thus providing a good opportunity for practicing management skills).

To receive a bunny, please contact your Coloplast sales representative.

Sensura® Mio Baby

2-piece pouching system designed with BodyFit Technology® to tackle the challenges of preemies and babies from 30 weeks of gestation to 6 months of age.

Sensura® Mio Baby Flex 2-Piece Barrier

- Oval barrier accommodates one or multiple stomas
- No starter hole – custom cut
- Gentle adhesive sticks securely and removes gently with Brava® Baby Adhesive Remover
- Soft flange enables the pouch to be removed and replaced
- Sterile, single-packed
- **Not made with natural rubber latex**

Cut-to-fit

Units: 5

Code	Stoma Size	Color	HCPCS*
18705	0 - 1 ⁹ / ₁₆ " (0-40 mm)		A4414

Arieta and Zion

Coloplast® Care is the only manufacturer-provided patient support program with better patient outcomes supported by peer-reviewed data.

About the team

Coloplast® Care Advisors assist patients with their intimate healthcare needs. They are available Monday through Friday from 7 a.m. to 7 p.m. (CT). The team offers one-on-one assistance, as well as:

Find the right product solution

Coloplast Care can help locate a medical supplies dealer in-network with your patient's insurance to ensure that they have access to the correct products.

Answer questions

Our team can answer questions regarding product lines and educational materials, as well as insurance and reimbursement issues. Coloplast Care will provide the information you and your patients need.

Provide product samples

Care Advisors are trained support staff, offering free samples from the complete Coloplast ostomy and continence product lines. Call toll free at 1-888-726-7872 or email care-us@coloplast.com to have trial products shipped today.

1-888-726-7872

Coloplast® Care Program

The program provides patients with product samples*, educational resources, and consumer care support.

Please visit bladder.coloplastcare.us or contact your local Coloplast Care Advisor for further information: **1-866-226-6362**.

For Peristeen® inquiries, contact your Coloplast Care Advisor at **1-855-605-7594** or peristeen@coloplast.com. Visit www.coloplastcare.us/bowel for more information.

Coloplast® Professional

Coloplast

Professional is a comprehensive program that suits a variety of learning needs and provides ongoing support to deliver best-in-class education and training for your staff.

Product Training

This hands-on training program is tailored to your staff and your schedule to establish proper product usage and compliance to protocols. Coloplast provides training at implementation and as needed to meet your needs.

Expert Education Programs

A Coloplast Clinical Consultant or Key Opinion Leader in the field of wound and skin care will provide a live learning experience at your facility, off-site, or via webinar. Learn best practices while sharing experiences with colleagues.

Online Learning

Coloplast HEAL is an online education program that offers CE credits for healthcare professionals. The program aims to expand knowledge of modern wound healing principles and improve the standard of care for patients. To learn more and register, visit www.coloplast.us/professional

Facility-led Education

This train-the-trainer program will provide expertise and materials to key individuals in your organization so they can drive education across the organization. Materials provided include presentations, training tools, and more to help you facilitate a meaningful training experience.

To learn more about the education programs offered by Coloplast, contact Customer Service at **1-800-533-0464**.

The information in this document is informational only, general in nature, and does not cover all payers' rules or policies. This information was obtained from third party sources and is subject to change without notice as a result of changes in reimbursement regulations and payer policies. This document represents no promise or guarantee by Coloplast Corp. regarding coverage or payment for products or procedures by CMS or other payers. Providers are responsible for reporting the codes that most accurately describe the patient's medical condition, procedures performed and products used. Providers should check Medicare bulletins, manuals, program memoranda and Medicare guidelines to ensure compliance with Medicare requirements. Inquires should be directed to the appropriate other payer for non-Medicare coverage situations.

Medicare Utilization - Continence Care

Usual maximum limits for some products from the Medicare Local Coverage Determinations (LCD) are shown below. Suppliers should examine their applicable Medicare contractor policies for full examination of policy requirements, including medical necessity and documentation.

HCPCS*	Long Description	Usual Maximum
A4310	Insert tray without drainage bag and without catheter (accessories only)	1 insertion tray per episode of indwelling catheter insertion
A4332	Lubricant, individual sterile packet, each	200/month
A4349	Male external catheter, with or without adhesive, disposable, each	35/month
A4351	Intermittent urinary catheter; straight tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each	200/month
A4352	Intermittent urinary catheter; Coudé (curved) tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.) each	200/month
A4353	Intermittent urinary catheter, with insertion supplies	200/month
A4357	Bedside drainage bag, day or night, with or without anti-reflux device, with or without tube, each	2/month
A4358	Urinary drainage bag, leg or abdomen, vinyl, with or without tube, with straps, each	2/month

Medicare Utilization - Ostomy

Usual maximum limits for some products from the Medicare Local Coverage Determinations (LCD) are shown below. The amount of ostomy supplies varies by patient based on the type of ostomy, its location, its construction, and the condition of the peristomal skin. The table below shows the maximum number of items that are usually medically necessary for patients with ostomies. It may be more or less depending on the factors that affect the frequency of barrier and pouch change. The medical necessity for a greater quantity of supplies must be clearly documented in the patient's medical record (physician's signed and dated order).

HCPCS*	Short Description	Usual Maximum
A4357	Bedside drainage bag	2 ea/month
A4361	Ostomy faceplate, each	3 ea/6 months
A4362	Skin barrier, solid, 4x4 or equivalent; each*	20 ea/month
A4363	Ostomy clamp replacement	none*
A4367	Ostomy belt, each	1 ea/month
A4368	Ostomy filter	none*
A4369	Ostomy skin barrier; liquid, per ounce	2 oz./month
A4371	Ostomy skin barrier powder, per ounce	10 oz/6 months
A4372	Ostomy skin barrier, 4 x 4, standard wear, CONVEX	none*
A4373	Ostomy skin barrier, with flange, CONVEX	none*
A4385	Ostomy skin barrier, 4 x 4, extended wear, FLAT	none*
A4388	One-piece ostomy drainable pouch and barrier, extended wear, FLAT	none*
A4389	One-piece ostomy drainable pouch and barrier, CONVEX	none*
A4390	One-piece ostomy drainable pouch, extended wear barrier, CONVEX	none*
A4391	One-piece urinary pouch, extended wear barrier, FLAT	none*
A4392	One-piece urinary pouch, standard wear barrier, FLAT	none*
A4394	Ostomy deodorant per ounce	none*
A4397	Ostomy irrigation supply; sleeve, each	4 ea/month
A4398	Ostomy irrigation supply; bag, each	2 ea/6 months
A4399	Ostomy irrigation supply; cone/catheter, with or without brush	2 ea/6 months
A4404	Ostomy ring, each	10 ea/month
A4405	Ostomy skin barrier, non-pectin based, paste, per ounce	4 oz/month
A4406	Ostomy skin barrier, pectin-based, per ounce	4 oz/month
A4407	Two-piece ostomy skin barrier, with flange, extended wear, CONVEX, (4 x 4 inches or smaller)	none*
A4408	Two-piece ostomy skin barrier, with flange extended wear, CONVEX, (larger than 4 x 4 inches)	none*

* No published Medicare usual maximum. Monthly quantity subject to medical necessary documentation.

**Elastic Barrier Strips - Curved or Straight: 40 strips/month

HCPCS*	Short Description	Usual Maximum
A4409	Two-piece ostomy skin barrier, with flange, extended wear, FLAT, (4 x 4 inches or smaller)	none*
A4410	Two-piece ostomy skin barrier, with flange, extended wear, FLAT, (larger than 4 x 4 inches)	none*
A4411	Two-piece ostomy solid skin barrier, extended wear, CONVEX	none*
A4412	Two-piece high output ostomy drainable pouch without filter	none*
A4413	Two-piece high output ostomy drainable pouch with filter	none*
A4414	Two-piece ostomy skin barrier with flange, FLAT (4x4 inches or smaller)	20 ea/month
A4415	Two-piece ostomy skin barrier, with flange, FLAT, greater than 4 x 4 inches	20 ea/month
A4416	One-piece ostomy closed pouch and barrier with filter, FLAT	60 ea/month
A4417	One-piece ostomy closed pouch and barrier with filter, CONVEX	60 ea/month
A4418	One-piece ostomy closed pouch with filter and barrier	60 ea/month
A4419	Two-piece ostomy closed pouch with filter for non-locking system	60 ea/month
A4423	Two-piece ostomy closed pouch with filter for locking system	60 ea/month
A4424	One-piece ostomy drainable pouch and barrier with filter, FLAT	20 ea/month
A4425	Two-piece ostomy drainable pouch with filter for non-locking system	20 ea/month
A4426	Two-piece ostomy drainable pouch without filter for locking system	20 ea/month
A4427	Two-piece ostomy drainable pouch with filter for locking system	20 ea/month
A4433	Two-piece ostomy urinary pouch for locking system	20 ea/month
A4455	Adhesive remover or solvent, per ounce	16 oz/6 months
A4456	Adhesive remover, wipes	none*
A5055	Stoma cap	31 ea/month
A5056	One-piece drainable ostomy pouch, extended wear with filter	40 ea/month
A5057	One-piece drainable ostomy pouch extended wear with filter, CONVEX	40 ea/month
A5061	One-piece ostomy drainable pouch and barrier, FLAT	20 ea/month
A5063	Two-piece ostomy drainable pouch for barrier with flange	20 ea/month
A5071	One-piece ostomy urinary pouch	20 ea/month
A5073	Two-piece ostomy urinary pouch	20 ea/month
A5081	Stoma plug or seal	31 ea/month
A5120	Skin barrier, wipes or swabs, each	150 ea/6 months
A5121	Solid skin barrier, 6x6 or equivalent, each**	20 ea/month
A5122	Solid skin barrier, 8x8 or equivalent, each	20 ea/month
A6154	Wound pouch, each	3/week

* No published Medicare usual maximum. Monthly quantity subject to medical necessary documentation.

**Elastic Barrier Strips - Y-shape: 60 strips/month

Medicare Utilization - Wound Care

Usual maximum limits from the Medicare Local Coverage Determinations (LCD) are shown below. Suppliers should examine their applicable Medicare contractor policies for full examination of policy requirements, including medical necessity and documentation.

HCPCS*	Short Description	Usual Maximum
A6196	Alginate dressing ≤ 16 sq. in.	1/day
A6197	Alginate dressing > 16 ≤ 48 sq. in.	1/day
A6199	Alginate dressing wound filler, per 6 inches	1/day
A6203	Sterile composite dressing, ≤ 16 sq. in. with border	3/week
A6204	Sterile composite dressing >16 ≤ 48 sq. in. with border	3/week
A6206	Sterile contact layer, ≤ 16 sq. in.	1/week
A6207	Sterile contact layer > 16 ≤ 48 sq. in.	1/week
A6209	Sterile foam dressing ≤ 16 sq. in. without border	3/week
A6210	Sterile foam dressing > 16 ≤ 48 sq. in. without border	3/week
A6211	Sterile foam dressing > 48 sq. in. without border	3/week
A6212	Sterile foam dressing ≤ 16 sq. in with border	3/week
A6213	Sterile foam dressing > 16 ≤ 48 sq. in. with border	3/week
A6234	Sterile hydrocolloid dressing ≤ 6 sq. in. without border	3/week
A6235	Sterile hydrocolloid dressing > 16 ≤ 48 sq. in. without border	3/week
A6236	Sterile hydrocolloid dressing > 48 sq. in. without border	3/week
A6237	Sterile hydrocolloid dressing ≤ 16 sq. in. with border	3/week
A6238	Sterile hydrocolloid dressing > 16 ≤ 48 sq. in. with border	3/week
A6240	Sterile hydrocolloid dressing filler, paste, per ounce	3/week
A6248	Hydrogel dressing, wound filler, gel, per fluid ounce	3 fl. oz. per wound/30 days
A6251	Sterile specialty absorptive dressing, wound cover, ≤ 16 sq. in. without border	1/day
A6252	Sterile specialty absorptive dressing, wound cover, > 16 ≤ 48 without border	1/day
A6260	Sterile wound cleanser, any type/size	Not covered under the surgical dressing benefit

Reimbursement Disclaimer: Coloplast Corp. provides this information for your general reference and related to the reimbursement of Coloplast products only. Reimbursement, coverage and payment policies can vary from one insurer and region to another, and may change over time. Coloplast does not guarantee coverage or payment of products.

HCPCS Code Reference

A4322	Irrigation syringe, bulb or piston, each
A4331	Extension drainage tubing, any type, any length, with connector/adaptor, for use with urinary leg bag or urostomy pouch, each
A4332	Lubricant, individual sterile packet, each
A4334	Urinary catheter anchoring device, leg strap, each
A4335	Incontinence supply; miscellaneous
A4338	Indwelling catheter; Foley type, two-way latex with coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each
A4340	Indwelling catheter, specialty type, (e.g., Coudé, mushroom, wing, etc.), each
A4344	Indwelling catheter; Foley type, two-way, all silicone, each
A4346	Indwelling catheter; Foley type, three-way for continuous irrigation, each
A4349	Male external catheter, with or without adhesive, disposable, each
A4351	Intermittent urinary catheter; straight tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each
A4352	Intermittent urinary catheter; Coudé (curved) tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each
A4353	Intermittent urinary catheter, with insertion supplies
A4357	Bedside drainage bag, day or night, with or without anti-reflux device, with or without tube, each
A4358	Urinary drainage bag, leg or abdomen, vinyl, with or without tube, with straps, each
A4361	Ostomy faceplate, each
A4362	Solid skin barrier; solid, 4x4 or equivalent; each
A4363	Ostomy clamp, any type, replacement only, each
A4366	Ostomy vent, any type, each
A4367	Ostomy belt, each
A4368	Ostomy filter, any type, each
A4369	Ostomy skin barrier liquid (spray, brush, etc.), per ounce
A4371	Ostomy skin barrier powder, per ounce
A4372	Ostomy skin barrier, solid 4x4 or equivalent, standard wear, with built-in convexity, each
A4373	Ostomy skin barrier, with flange (solid, flexible or accordion), with built-in convexity, any size, each
A4385	Ostomy skin barrier, solid 4 x 4 or equivalent, extended wear, without built-in convexity, each
A4388	Ostomy pouch, drainable, with extended wear barrier attached, (1 piece), each
A4389	Ostomy pouch, drainable, with barrier attached, with built-in convexity (1-piece), each
A4390	Ostomy pouch, drainable, with extended wear barrier attached, with built-in convexity (1-piece), each

HCPCS Code Reference

A4391	Ostomy pouch, urinary, with extended wear barrier attached (1-piece), each
A4392	Ostomy pouch, urinary with standard wear barrier attached, with built-in convexity (1-piece), each
A4393	Ostomy pouch, urinary, with extended wear barrier attached, with built-in convexity (1 pc), each
A4394	Ostomy deodorant, with or without lubricant, for use in ostomy pouch, per fluid ounce
A4396	Ostomy belt with peristomal hernia support
A4397	Irrigation supply; sleeve, each
A4398	Ostomy irrigation supply; bag, each
A4399	Ostomy Irrigation supply; cone /catheter, with or without brush
A4402	Lubricant, per ounce
A4404	Ostomy ring, each
A4405	Ostomy skin barrier, non-pectin based, paste, per ounce
A4406	Ostomy skin barrier, pectin-based, paste, per ounce
A4407	Ostomy skin barrier, with flange (solid, flexible, or accordion), extended wear, with built-in convexity, 4x4 inches or smaller, each
A4408	Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, with built-in convexity, larger than 4x4 inches, each
A4409	Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, without built in convexity, 4x4 inches or smaller, each
A4410	Ostomy skin barrier with flange (solid, flexible or accordion), extended wear, without built-in convexity, larger than 4x4 inches, each
A4411	Ostomy skin barrier, solid 4x4 or equivalent, extended wear, with built-in convexity, each
A4412	Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), without filter, each
A4413	Ostomy pouch, drainable, high output, for use on a barrier with flange (2 piece system) with filter, each
A4414	Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, 4x4 inches or smaller, each
A4415	Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, larger than 4x4 inches, each
A4416	Ostomy pouch, closed, with barrier attached, with filter (1-piece,) each
A4417	Ostomy pouch, closed, with barrier attached, with built-in convexity, with filter (1-piece), each
A4418	Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), without filter, each
A4419	Ostomy pouch, closed; for use on barrier with non-locking flange, with filter (2-piece), each
A4421	Ostomy supply; miscellaneous
A4422	Ostomy pouch absorbent material (sheet, pad, crystal packet) for use in ostomy pouch to thicken liquid stomal output, each
A4423	Ostomy pouch, closed; for use on barrier with locking flange, with filter (2-piece), each
A4424	Ostomy pouch, drainable, with barrier attached, with filter (1-piece), each

HCPCS Code Reference

A4425	Ostomy pouch, drainable; for use on barrier with non-locking flange, with filter (2-piece system), each
A4426	Ostomy pouch, drainable; for use on barrier with locking flange (2-piece system), each
A4427	Ostomy pouch, drainable; for use on barrier with locking flange, with filter (2 piece system), each
A4428	Ostomy pouch, urinary, with extended wear barrier attached, with faucet-type tap with valve (1-piece), each
A4429	Ostomy pouch, urinary, with barrier attached, with built-in convexity, with faucet-type tap with valve (1-piece), each
A4430	Ostomy pouch, urinary, with extended wear barrier attached, with built-in convexity, with faucet-type tap with valve (1-piece), each
A4431	Ostomy pouch, urinary; with barrier attached, with faucet-type tap with valve (1- piece), each
A4432	Ostomy pouch, urinary; with barrier attached, with faucet-type tap with valve (1- piece), each
A4433	Ostomy pouch, urinary; for use on barrier with locking flange (2-piece), each
A4434	Ostomy pouch, urinary; for use on barrier with locking flange, with faucet-type tap with valve (2-piece), each
A4435	Ostomy pouch, drainable, high output, with extended wear barrier (1-piece system), with or without filter, each
A4455	Adhesive remover or solvent (for tape, cement or other adhesive), per ounce
A4456	Adhesive remover, wipes, any type, each
A4459	Manual pump-operated enema system, includes balloon, catheter and all accessories, reusable, any type
A5051	Ostomy pouch, closed; with barrier attached (1-piece), each
A5052	Ostomy pouch, closed; without barrier attached (1-piece), each
A5053	Ostomy pouch, closed; for use on faceplate, each
A5054	Ostomy pouch, closed; for use on barrier with flange (2-piece), each
A5055	Stoma cap
A5056	Ostomy pouch, drainable, with extended wear barrier attached, with filter (1-piece), each
A5057	Ostomy pouch, drainable, with extended wear barrier attached, with built in convexity, with filter, (1-piece), each
A5061	Ostomy pouch, drainable; with barrier attached, (1-piece), each
A5062	Ostomy pouch, drainable; without barrier attached (1-piece), each
A5063	Ostomy pouch, drainable; for use on barrier with flange (2-piece system), each
A5071	Ostomy pouch, urinary; with barrier attached (1-piece), each
A5072	Ostomy pouch, urinary; without barrier attached (1-piece), each
A5073	Ostomy pouch, urinary; for use on barrier with flange (2-piece), each
A5081	Stoma plug or seal, any type
A5093	Ostomy accessory; convex insert

HCPCS Codes

A5113	Leg strap; latex, replacement only, per set
A5114	Leg strap; foam or fabric, replacement only, per set
A5120	Skin barrier, wipes or swabs, each
A5121	Skin barrier; solid, 6x6 or equivalent, each
A5122	Skin barrier; solid, 8x8 or equivalent, each
A5131	Appliance cleaner, incontinence and ostomy appliances, per 16 ounces
A6154	Wound pouch, each
A6196	Alginate or other fiber gelling dressing, wound cover, sterile, pad size 16 sq. in. or less, each dressing
A6197	Alginate or other fiber gelling dressing wound cover, sterile, pad size more than 16 sq. in. but less than or equal to 48 sq. in, each dressing
A6199	Alginate or other fiber gelling dressing, wound filler, sterile, per 6 inches
A6203	Composite dressing, sterile, pad size 16 sq. in. or less, with any size adhesive border, each dressing
A6204	Composite dressing, sterile, pad size more than 16 sq. in. but less than or equal to 48 sq. in., with any size adhesive border, each dressing
A6206	Contact layer, sterile, 16 sq. in. or less, each dressing
A6207	Contact layer, sterile, more than 16 sq. in. but less than or equal to 48 sq. in., each dressing
A6209	Foam dressing, wound cover, sterile, pad size 16 sq. in. or less, without adhesive border, each dressing
A6210	Foam dressing, wound cover, sterile, pad size more than 16 sq. in but less than or equal to 48 sq. in. without adhesive border, each dressing
A6211	Foam dressing, wound cover, sterile, pad size more than 48 sq. in. without adhesive border, each dressing
A6212	Foam dressing, wound cover, sterile, pad size 16 sq. in. or less, with any size adhesive border, each dressing
A6213	Foam dressing, wound cover, sterile, pad size more than 16 sq. in but less than or equal to 48 sq. in. with any size adhesive border, each dressing
A6234	Hydrocolloid dressing, wound cover, sterile, pad size 16 sq. in. or less without adhesive border, each dressing
A6235	Hydrocolloid dressing, wound cover, sterile, pad size more than 16 but less than or equal to 48 sq. in. without adhesive border, each dressing
A6236	Hydrocolloid dressing, wound cover, sterile, pad size more than 48 sq. in. without adhesive border, each dressing
A6237	Hydrocolloid dressing, wound cover, sterile, pad size 16 sq. in. or less, with any size adhesive border, each dressing
A6238	Hydrocolloid dressing, wound cover, sterile, pad size more than 16 sq. in. but less than or equal to 48 sq. in., with any size adhesive border, each dressing
A6239	Hydrocolloid dressing, wound cover, sterile, pad size more than 48 sq. in., with any size adhesive border, each dressing
A6240	Hydrocolloid dressing, wound filler, paste, sterile, per ounce
A6248	Hydrogel dressing, wound filler, gel, per fluid ounce
A6251	Specialty absorptive dressing, wound cover, sterile, pad size 16 sq. in. or less, without border adhesive border, each dressing

HCPCS Codes

A6252	Specialty absorptive dressing, wound cover, sterile, pad size more than 16 sq. in but less than or equal to 48 sq. in without adhesive border, each dressing
A6260	Wound cleansers, any type, any size
A6413	Adhesive bandage, first-aid type, any size, each Not covered under the surgical dressing benefit

Making
life *easier*

From getting to the grocery store to biking up a mountain, users' hopes and aspirations fuel our passion of finding new ways to help make their lives easier.

We constantly question the status quo across every aspect of intimate healthcare and seek to understand our users, to better anticipate and advocate for their needs. Ever since the founding of Coloplast in 1957, we have worked closely with healthcare professionals and the users of our products to discover new solutions as well as new ways to create solutions that are sensitive to their special needs. Together, we move care forward.

Our business includes Ostomy Care, Continence Care, Wound & Skin Care and Interventional Urology. We operate globally and employ about 13,000 employees.
