

## Dale Tracheostomy Tube Holders are

 designed to provide secure positioning and to minimize movement of the tracheostomy tube for all your patients.
## Tracheostomy Tube Holders

WHETHER YOU CHOOSE THE WELL-KNOWN DALE 240 BLUE ${ }^{\circledR}$ FOR ADULTS, PEDIPRINTS® SERIES FOR KIDS, OR THE BARIATRIC 244 BLUE® YOU CAN BE SURE IT'S THE RIGHT CHOICE

Unnecessary movement of the trach tube can result in accidental dislodgement or displacement of the tube, tracheoesophageal fistula, tracheal stenosis, or airway granuloma. That's why it is important to know that no other securement method stabilizes tracheostomy tubes better than Dale. Now you can eliminate the frustrations associated with twill ties and other holders while minimizing secondary complications at the same time.

- Secure fastener tabs limit movement of the tracheostomy tube reducing accidental decannulation.
- Exclusive moisture wicking neckband lining reduces the risk of skin breakdown by minimizing the amount of moisture absorbed.
- Adjustable two piece neckband.
- PediPrints ${ }^{\circledR}$ series offers kids fun, comforting prints. $\dagger$
- Fastener tabs quickly and easily attach to any size tracheostomy tube.
- Stretch material $\ddagger$ allows for cough reflex, accommodates edema, and ensures a snug fit without compromising security.
$\square$ Not made with natural rubber latex.
+ On the 241 and 242 tube holder
$\ddagger$ On the 240 Blue $(\circledR$ tube holder
