HELPS RELIEVE LOWER BACK PAIN

The CorFit System® Sacroiliac Support is designed specifically to help relieve painful stress and instability of the pelvis and sacroiliac joints. Wrapping around hips and pelvic girdle, this support compresses the sacroiliac and symphysis pubis joints, creating stabilization. Ideal for ligament injury, core weakness, or abnormal SI joint alignment.

PATENTED, PROPORTIONAL SIZING SYSTEM

Our patented, proportional sizing system provides a proper fit in height and length to accommodate various body sizes. Flexible internal stays provide support and stability as well as help prevent the sides from rolling. Easy closure assists provide additional leverage with minimal effort for extra compression and a secure fit; ideal for users with arthritis or weakened muscles. The soft elastic CorEdge® finish on top and bottom edges offers added comfort and flexibility.

COMFORT, COMPRESSION, FLEXIBILITY, & STABILITY

Soft and comfortable material wicks away moisture, keeping the body cool and comfortable. The anatomical form contours to the natural curves of the hips for comfort. Dual elastic side pulls provide firm compression.

SPECIFICATIONS

Product Selection:
SIB-6000 CorFit System®
Sacroiliac Support

Latex: This product is not made with natural rubber latex.

Product Dimensions: S: 4" x 30",
M/L: 4" x 36", XL: 6" x 42",
2XL: 6" x 54", 3XL: 6" X 60"

Measure around your hips, just below the waistline

Materials: Elastic, Polyester, Nylon,
Polyurethane foam

SIZE	INCHES	CM
S	27-38"	69-97cm
