

URINALYSIS REAGENT STRIPS

McKesson Consult® urinalysis test strips provide fast, clear and reliable results testing multiple analytes in urine. They are ideal for screening for diabetes, kidney and liver problems, and various infections. The strips are stored at temperatures between 36°F-86°F (2°C-30°C), requiring no special storage arrangements. They are ready to be used immediately upon removal from bottle. Consult urinalysis test strips may be read visually, requiring no additional laboratory equipment for testing; or they can also be used with the Consult urine analyzer. The MFR# 121-MAC Microalbumin/Creatinine Urine Reagent Strips can only be used with the analyzer and the strips cannot be visually read.

FEATURES AND BENEFITS

- Provides fast, clear and reliable results testing multiple analytes in urine
