

## Topical anesthetic spray

McKesson topical anesthetic spray temporarily controls pain associated with injections, starting IVs and venipuncture, minor surgery and minor athletic injuries. McKesson topical anesthetic spray works as an alternative to ethyl chloride. The sprays are Hazmat-free which means no Hazmat fees, Hazmat storage and Hazmat disposal. Available in medium stream or mist spray. **Inhalation Precaution:** When oxygen levels in air are reduced to 12-14% by displacement, symptoms of asphyxiation, loss of coordination, increased pulse rate and deeper respiration will occur. At high levels, cardiac arrhythmia may occur.

### Features and benefits

- Temporarily controls pain for approximately 60 seconds
- Safe alternative to ethyl chloride
  - Same dosage and administration
  - Same onset of action
  - Same cooling profile
  - Same duration of effect
- Hazmat-free
- Non-flammable
- Available in medium stream or mist spray
- Rx only
- Not made with natural rubber latex
