

Sterilization Pouches

McKesson Argent® Sterilization Pouches help to ensure infection prevention through proper instrument sterilization, facilitating the safety of both patients and medical staff. Triple seals trap heat along the secured edges to prevent separation. Our sterilization pouches maintain sterilization integrity through extra-wide chevron seals. Includes Class 4 or Multi-Parameter Sterilization indicators to help ensure proper saturating steam presence, exposure time and sufficient high temperatures. Wide self-seal strip and thumb notch make it easy to open. Medical-grade paper eases the labeling process; clear transparent film provides aseptic presentation and easy identification of surgical equipment.

Features & Benefits

- » Secure triple seals to help prevent separation and instrument breaching
- » Easy to open with wide self-seal strip and thumb notch
- » Class 4 (multi-parameter) sterilization indicator saves time and helps assure proper sterilization
- » Compatible with steam and ethylene oxide (EO) sterilizers
- » Not made with natural rubber latex
